Contact page					X
Reflections (description of portfolio pieces)					
Content of reflections appropriate					X
Project images are high quality					X
Spelling and grammar are correct					X

What was your overall first impression of the website?

It looked very good, well organized and clean.

Did you have any technical difficulties as you navigated through the pages and displayed the projects? none

What do you feel are the most effective design elements of this web portfolio? I appreciated the consistency between the different project pages. With each project page being laid out the same, it was easy to find the relevant information that I was looking for.

What would you suggest be changed with the design or content of this web portfolio?

In the about me page, there were several boxes with dynamic feedback, which seemed like they would link me to another page giving more information about the hobbies, but there was no link. Maybe remove the dynamic feedback on these boxes so as not to indicate that clicking on the boxes will lead you to more information.
